Dear Members, Staff and Volunteers

At long last we will be seeing some activity for the restoration of our Maple Ridge Seniors Centre. The insurance companies have agreed to cover everything in the centre.

Servicemaster, the same company that removed the flooring and walls and dried out the building will be doing the restoration work. They have indicated that they would be getting their crews together and starting this week. Initial job will be replacing the insulation and dry wall. Early indication on this is a couple of weeks, but not sure if that includes the painting.

We have a meeting with the project manager this week and will be looking for a more definitive time line for the total job. The problem may be the flooring and immediate availability of product. We are looking to upgrade all of the flooring at this time. We will also be looking at some other possible upgrades seeing as we are reconstructing parts of the centre.

Hopefully, we are not being overly optimistic again, but the contract for work has been given, and we should be seeing construction activity very soon.

There is hope. It has taken a long time to get here, and we will let you know a possible time line as soon as we have one.

Don Mitchell
